DETAILED ACTION

REASONS FOR ALLOWANCE

[1] The following is an examiner's statement of reasons for allowance: The instant invention is a defective pixel detection method.

[2] Prior art was found and applied in the non-final rejection. Applicant amends the independent claims 11, 12, 15, 16, 17, 18, 19 and 20, they now recite *inter alia* "a pixel portion having a plurality of pixels each comprising a photoelectric conversion element **and a light emitting element**". Albeit, this type pixel configuration is known in the art, see abstract of Togashi et al. [US 4,345,248], Examiner finds a lack in motivation to combine these references to meet the claim limitations.

[3] Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

[4] Claims 11-26 are allowed.
